Rounding Worksheet

Solve the following problems below by rounding. Show your work.

1. Maria rakes her yard and collects the leaves. If she collects 4 bags of leaves and each bag contains 2.2 pounds of leaves, how many pounds of leaves did she collect? Round the final answer to the nearest whole number.

$$4 \times 2.2 = 8.8$$

$$8.8 = 9 \text{ pounds}$$

$$3.3 + 4.1 = 7.4$$

$$7.4 = 7 \text{ pounds}$$

3. Miguel collected 6.9 pounds of leaves and Sam collected 5.3 pounds of leaves. How many more pounds of leaves did Miguel collect? Round the final answer to the nearest whole number.

$$6.9 - 5.3 = 1.6$$

$$1.6 = 2 \text{ pounds}$$
