Rounding Answer Sheet

Solve the following problems below by rounding. Show your work.

1. One box of chocolate contains 25 ounces. If Sam eats 11.4 ounces how much chocolate is left? Round the final answer to the nearest whole number.

$$25 - 11.4 = 13.6$$

$$13.6 = 14 \text{ ounces}$$

$$20.5 + 2 = 10.2$$

$$10.2 = 10 \text{ ounces}$$

3. Jack gives away 2.8 ounces of candy to Alex, 4.3 ounces to Taylor, and 1.9 ounces to Jessie. How many ounces of chocolate did he give away? Round the final answer to the nearest whole number.

$$2.6 + 3.1 + 1.9 = 7.6$$

$$7.6 = 8 \text{ ounces}$$
