Healthy Eating Tips:

carbohydrates

Choose good carbs, not no carbs. Whole grains are your best bet.

protein

Pay attention to the protein package. Fish, poultry, nuts, and beans are the best choices.

fiber

Choose a fiber-filled diet, rich in whole grains, vegetables, and fruits.

vegetables/fruits

Eat more vegetables and fruits. Go for color and variety—dark green, yellow, orange, and red.

calcium/milk

Calcium is important. But milk isn't the only, or even best, source.

healthier drinks

Water is best to quench your thirst. Skip the sugary drinks, and go easy on the milk and juice.

vitamins

A daily multivitamin is a great nutrition insurance policy. Some extra vitamin D may add an extra health boost.
